

THE EVEREST BOTTOM LOADING Case Packer

Loading your case from the bottom means never letting go of your product, handling it gently and offering a conventional alternative to a pick-and-place system.

You need to bottom load your product if you're in:

- ▶ Food applications with rectangular or lay-flat cartons
- ▶ Food applications with delicate/sensitive products
- ▶ Dairy applications with gable-top cartons or gallon jugs
- ▶ Products with shrink wrap or transparent film on the top
- ▶ Industrial chemicals, cans and bottles
- ▶ And many more ...

By reducing labor and simplifying operations, you will see your bottom line increase while increasing safety and minimizing product loss.

- ▶ ProAdjust® and Intelligent Illumination™ ready
- ▶ Up to 30 cases per minute
- ▶ Small energy footprint with case erect, load and sealing in one frame
- ▶ Servo driven
- ▶ Clean & modern design
- ▶ Accommodates RSC & HSC product types
- ▶ Robotic case pickoff

Our solutions have a rapid ROI and are:

- ▶ Affordable
- ▶ Efficient
- ▶ Flexible
- ▶ Safe by design
 - ANSI/PMMI B155.1
 - RIA R15.06

THE EVEREST BOTTOM LOADING Case Packer

Why a Schneider Bottom Loading Case Packer?

Unique Bottom Loading Design

- ▶ Handling is gentle on your product
- ▶ Your product is always fully supported
- ▶ There is no pick-tooling required
- ▶ Nothing touches the top of your product
- ▶ Incredibly small footprint

All Servo Design

- ▶ Minimizes the number of wearable parts
- ▶ Lowers overall maintenance costs
- ▶ Maximizes the machine's performance
- ▶ Extremely low energy usage

Operations-Focused HMI & Machine

- ▶ Intelligent Illumination™ system visually cues operational or maintenance tasks
- ▶ Operator friendly interface makes using the machine simple
- ▶ Open design for ease of access for operators and maintenance personnel

Full Sealing Options

- ▶ Hot melt glue
- ▶ Pressure-sensitive or water-activated tape
- ▶ Combination of glue and tape

ProAdjust®-Ready for Ultra-Fast Changeovers

- ▶ Fast, accurate, repeatable and reliable automated changeovers

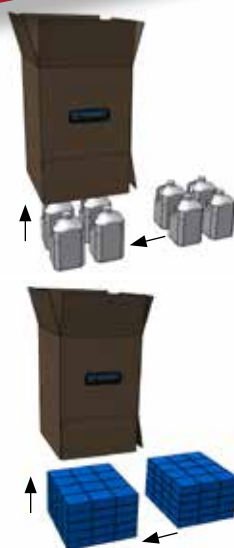

Other Schneider End-of-Line Solutions:

- ▶ Horizontal/Vertical Case Packers
- ▶ Robotic Case Packers
- ▶ Robotic Palletizers
- ▶ Multi-Line Systems
- ▶ Case Erectors
- ▶ Case Sealers
- ▶ Ancillary Equipment

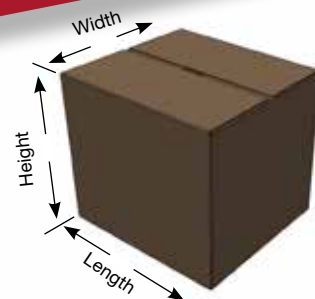

Display-Ready Cases

Regular Slotted Cases

Case Dimensions

Minimum: L x 6" W x 4.75" H x 5"
Maximum: L x 18" W x 15" H x 15"

Creating innovation, not just machines.
